

To our Valued Healthcare Professionals,

Nurses 24/7 wants to thank you for your tireless, work, perseverance and professionalism in this time of crisis. As healthcare professionals we are not only called to care for the sick but to step up in times of crisis like this. How we handle ourselves in this time is a true reflection of who we are as healthcare providers, humanitarians and people. Crisis times always brings out the best and worst in people. I am proud to say I have seen the best in our Nurses 24/7 population. Nurses and Therapist eager to go to work and do what they can to help, despite long hours, high anxiety levels in the population, limited resources and general uncertainty. The patients, your families and the general population are looking to healthcare workers to remain calm, be reassuring and maintain their compassion during 12 plus hour shifts with little to no breaks and overwhelming feeling that this will never end. I assure you it will, and the people that will be remembered when this passes are those who selflessly and graciously served that community because that is what we went into healthcare to do! We wish you the strength, health and patience to get through these trying times.

I am proud to serve all of you as your Nursing Director. Nurses 24/7 is here to support you 24/7, with staffing and Clinical on call 24/7. We too are working tirelessly to support you and hospitals during this time. On behalf of all of us at Nurses 24/7, Thank you for all you do!

Best Regards,

Marion
